

# Phillip Burney

P.O Box 672 | Columbus, NC, 28722 | (828)-817-4232 | peburney@gmail.com

## Professional summary

---

Highly motivated team player with experience in web app development, database management systems, and back end software development. Seeking a full time position in software engineering.

## Education

---

BS in Computer Science, Expected May 2022

GPA: 4.00 / 4.00

North Carolina State University, Raleigh, NC

Courses: Software Engineering, App Web Computing, Database Management Systems, Data Structures and Algorithms, C and Software Tools

## Technical Skills

---

Software Languages:	TypeScript, JavaScript, SQL, Python, C#, Java
Computer Programs:	Microsoft Word, Microsoft Excel, SolidWorks
Web Technologies:	HTML5, CSS, RESTful APIs, DNS
Tools:	GIT, Jest, Visual Studio Code
Frameworks:	React, Vue.js, JQuery, Express.js, Node.js
Databases:	MySQL, MongoDB

## Projects

---

**Web Application:** Designed and implemented a web application that would allow people to buy and sell classic cars and classic car parts. The application used VueJS for a front end framework, and MongoDB for the database. Users can make their own accounts, and users could use those accounts to make posts to sell cars or car parts.

**ITrust2:** Worked on a team as part of a class project to extend a fictitious health portal titled ITrust2. I worked on a team for about 8 weeks to give customers the ability to give doctors reviews, and to add a new type of health care provider to the back end: an ophthalmologist. All code was tested using a combination of Selenium, Cucumber, and JUnit. I mainly worked with the front end development, which used Angular 2.

## Work Experience

---

Tutor, Academic Success Center, North Carolina State University  
Raleigh, NC

January 2020 - Present  
7 Hours / Week

- Meet with many different students weekly to discuss material that they are struggling with in math and physics
- Communicate with students and help them to become better learners and work on critical thinking skills.
